

Electrical Part for Forklifts

Forklift Electrical Parts - Lift trucks could be particularly marked to be utilized in hazardous places. A labeled forklift denotes the design has met the minimum requirements of ANSI/UL 558 used for engine powered lift trucks or ANSI/UL 583 utilized for electric trucks for the type of label attached.

The use for labels used for lift lift trucks can be found in National Fire Protection Association NFPA 505 - Powered Industrial lift trucks including: Maintenance and Operation, Type Designations, and Areas of Use. Consult your local insurance provider and Fire Marshall for more information on the approved uses of industrial powered forklifts in your application.

If the particular forklift satisfies the outlined criteria, labels can be attached. A labeled forklift would show the type of designation placed on the nameplate and will have a correctly corresponding label attached.
