

Meritor Parts

Meritor Parts - The Meritor Company is a leading global dealer founded upon one hundred years of custom of service and quality. Meritor concentrates on integrated systems with various modules and components to the original equipment manufacturers and aftermarket equipment in the transportation and industrial trades.

Meritor values the needs of all their customers to ensure their success while priding itself in the company's unique energy and feels this output of energy to be their aggressive advantage in their global operations. Meritor starts with a tradition which values diversity of people and their broad thought processes. Operating in 19 countries and employing over 11,200 people, Meritor encourages collaboration and innovation amongst a team of knowledgeable experts.

By just employing future focused individuals, Meritor strongly thinks these top-caliber individuals will be able to quickly get used to to changing environments and exhibit the performance and commitment considered necessary so as to attain results in the competitive materials handling market. The company empowers their teams to make sound business decisions so as to improve the overall success of the company. In return, Meritor offers all of their staff various possibilities for professional and personal growth.

Their Advanced Engineering team is at the forefront of components and system engineering which include drivelines, axles, braking and suspension systems used for medium and heavy duty trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is developing. They opened a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives that represent the whole Asia Pacific region. This particular team is even responsible for supporting the requirements of all their global engineering personnel.

Meritor's dynamic and customer focused Quality team is dedicated to ensuring optimum processing at their aftermarket distribution facilities and production plants that are situated all over the world in 19 countries and in 5 different continents.

They have their supplier network which is specifically located to be able to support the development of the business. Each and every regional team has globally supported initiatives, quality systems and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a data-driven, fact-based method to decision making in each part of the business. The DFSS or otherwise known as Design for Six Sigma ensures product reliability in each and every region. The team is even included transactional Green Belts who make use of Six Sigma tools to business techniques and apply lean techniques.
