

## Clark Forklift Parts

Clark Forklift Parts - Performing globally, there are now 350,000 Clark forklifts and lift trucks in operation, with more than 250,000 of those in commission in North America. Clark has five major lines of lift trucks across the globe, making it one of the most expansive corporations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, gas, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift, handles more than 120,000 particular components fabricated for 20 unique models of lift trucks and automated equipment. Your local Clark Dealer is your complete source for availability of all your parts needs offered by Clark Totalift.

Clark has a exceptional Parts Distribution team. The parts warehouses are conveniently located in Changwon, South Korea and Louisville, Kentucky to ensure exceptional service to both their buyers and their dealers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing manufacturers. Driven to offer the highest level of value and service to our customers, Clark remains on the leading edge when it comes to enhancing output and benefiting performance.

Globally, Clark has one of the most outstanding supplier support networks. With over 550 locations globally, dealer representation in over 80 countries and 230 locations in North America, their high level of commitment to their customers predominates the materials handling market.

By pioneering the operator restraint system protection feature, Clark proudly remains a leader of innovation in the industrial equipment and automated lift truck industry. This exceptional commitment to safety is currently a standard feature on every forklift.

Clark has a relentless goal to possess the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift vehicles to be globally certified with quality standard ISO 9001 in all of its production facilities. Furthermore, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement permits Clark to be prepared for any environmental limitations, thus placing them in a prevailing industry position.

Clark has preferred the extremely economical and beneficial system of "Lean Manufacturing" for its assembly plants and application of resources. This structure was established to acknowledge the most effective method of manufacturing plant management and ensuring maximum proficiency. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

By working in concert, Clark's product suppliers and engineers communicate towards enhancing product effectiveness while minimizing costs. The new value engineering agenda combines modern product improvement and provides superior customer support and service within the industry.
